

Since 1999, the #1 Motorcycling Resource for Women and Those Who Ride With Us

November 20, 2023

Hello friends! This newsletter is our way of sharing articles and news recently posted on [WomenRidersNow.com](https://www.WomenRidersNow.com) (WRN).

I live in Northern California, so I don't have quite the extreme seasonal changes that many of you have. But for all of us, the shorter days and cooler temps mean we have to maximize our riding hours and ensure we're properly geared up. I'm a firm believer in the adage, "There's no bad weather, just wrong gear."

This month we review a comfortable and protective all-weather boot for [adventure riding from REV'IT!](#) I can attest to personally loving the Discovery GTX boots [when I'm coaching](#) and have to be on my feet (on and off the bike) all day. You'll also find several reader reviews of the latest product innovations from woman-owned [Hooligan Wrap](#). And for even more warmth, check out our [review of Harley's latest electrically heated gear](#).

Of course the best part about autumn is we move into the holiday season where we're surrounded with friends and family. Whether your family is a biological one or a [group of riding sisters](#), we hope you make time to ride with them this season. I'll be spending some time riding the new BMW GS 1300 with friends in Southern Spain, and I can't wait to tell you all about it via our [Facebook](#) and [Instagram](#) pages. We love to hear and share [your stories](#) too.

Enjoy the ride!

Honda Transalp XL750

New and improved ADV icon may be the perfect fit

CHECK IT OUT ▶

Honda brings back its iconic Transalp ADV bike and we are excited! We expect it to be the perfect bike in Honda's adventure line-up for those of us who want full-size bike features without the bulk, weight, and tall seat height that comes with the bigger bikes. At just \$10k the new middleweight includes many advanced features we want both on and off the road. **CHECK IT OUT**

Plug In & Ride Longer

Stay warm with Harley-Davidson heated gear

Today's heated motorcycle gear is so good you won't want the ride to end even when the temperature plummets. Harley-Davidson Programmable heated gear offers a comfortable and easy way to stay warm throughout the entire ride, no matter how long it is. We acquired the collection's jacket, glove, pant, and sock liners for some recent cold-weather riding. See how the gear works. [READ REVIEW](#)

[Hooligan Wrap](#)

Prevent leg burns with an easy-to-use product

Founder Paula A. Dana invented a product that put a barrier between your motorcycle's engine and exhaust heat and your leg. Her Hooligan Wrap keeps getting better with each iteration. Now in its third revision, the Wrap gets rave reviews from women riders like Katie Killer, who was searching for this solution for years. Check out what they say and use code **WRAP15** to get **15% off your order**, exclusively for WRN readers. [**CHECK IT OUT**](#)
