

Since 1999, the #1 Motorcycling Resource for Women and Those Who Ride With Us

February 23, 2024

Hello subscribers! This newsletter is our way of sharing articles and news recently posted on [WomenRidersNow.com](https://www.womenridersnow.com) (WRN).

There is something truly incredible about crisp air rides this time of year. This photo shows me layered up with my riding buddy Ashley Nicole while taking a break from riding on a cool sunny day last February when we rode our adventure bikes off the beaten path in Moab, Utah.

Disconnecting from the bustle of life and reconnecting with the beauty of nature are some of my fondest moto memories.

Waiting for the sun to warm the landscape, we grabbed a hot cup of coffee before hitting the dirt. The terrain was a refreshing challenge of sand, slabs, red dirt, and gravel. Riding my BMW F 800 GS between the towering red rock formations through the canyons with sweeping views of the desert was truly unforgettable. WRN's Erin Sills first ride aboard the new BMW R 1300 GS was also unforgettable—but a big jump in power from my F 800 GS!

WomenRidersNow.com is your resource with inspiring stories, gear reviews to keep you protected in style, and expert advice to help you conquer any road that lies ahead. We hope you're getting excited about the warmer riding days ahead, too. We'd love to hear about your 2024 motorcycling plans and share more [women's riding events](#) with readers like you.
